

Premier Volleyball Club is a competitive juniors program located in the Riverside County area. Premier VBC provides a positive and fun environment for girls to learn the game of volleyball. We are excited about the talent that we have coming in, and look forward to a very competitive and rewarding 2007-2008 season.

Premier Volleyball club's mission is to give all participants an opportunity to elevate and develop their volleyball skills through practice and hard work. We also have fun while building working knowledge of the game, making new friends, and pursue higher levels of volleyball competition. As a club, we encourage our athletes to learn good sportsmanship, respect their coaches and teammates, and to learn to succeed in a "team" environment.

Our emphasis is to train athletes and to reach their personal goals and to compete at their highest level. In combination with local fitness centers we are ready to provide great facilities. If you are looking for quality training, and lots of FUN, then Premier VBC is for you!
